About The Event

Developing Renewables, modernizing its power system and decarbonizing its energy sector is among the top priorities of Indonesia.

As one of the top five countries in Asia-Pacific with significant renewable energy capacity, Indonesia intends to see 23% of its energy supplied by modern renewables like solar by 2025. And 35% by 2050.

Indonesia Clean Energy + Smart Grid Summit 2022 and **Indonesia Solar Energy Summit** will be co-hosted on December 1-2, 2022, in Jakarta. It will present the clean energy technologies, policies, and best practices that are transforming Indonesia's energy landscape today. The goal of the event is to highlight opportunities and encourage collaboration that speeds our use of more energy efficiency, solar, wind, storage, EVs, and other clean energy solutions.

The Conference attendees will include representatives from gov bodies, energy companies, project owners, investors, contractors, and solutions providers.

- + **Indonesia Energy Sector Net Zero Roadmap**
- + **Clean Energy Investment & Financing**
- + **Solar Tech & Storage**
- + **Wind, Hydro and other renewables**
- + **Modernizing Indonesia's Electricity Grids**
- + **Digital Connected Energy Network**
- + **Electric Vehicles & Charging Infra**

There will be a small-scale exhibition and solutions showcasing available for solutions providers, it is the ideal platform to stay connected, inspired with the industry peers as well as to promote your product and forge business partnerships.

I am happy with the result of the event, we have a lot of high profile attendees, some are from end user side, some from business partner side and there was a lot of learning from the speakers and we look forward to more of this kind of opportunities.

Leonard Zapa, Market Development Manager, HP INC

It's very exciting and encouraging to see 300+ delegates and Microsoft being one of the sponsors. It was great to see the energy and trying to understand the local trends and what is on top of mind of industry practitioners. We're at the brink of industry revolution, we discussed the green transformation, our value proposition in the new era, and the way to transform its products. It was an eye opener that the customers are looking at digital channels as part of its strategy, and we love to make sure they use technology to maintain their advantages.

Akkasha Sultan Microsoft Dynamics 360 Lead APAC

The world is in the wave of clean energy transition and this clean energy conference is timely hosted, we are glad to be able to meet so many experts and investors in clean energy sector, presenters made very insightful discussions, a very rewarding experiences for me.
