Thank you Letter

Dear Southeast Asia Automotive Technology Summit's Participants

I would like to express my gratitude for your participation in Escom's "**Southeast Asia Automotive Technology Summit**". It was a great pleasure meeting you all at this conference, and seeing the vibrant interactions that took place onsite. We were honored to gather the industry experts flying from around the world to discuss the current situation in the region and how we can work together to create a beneficial future to boost the competitiveness of the region's Automotive Industry. The auto conference also served as the highest industry platform for OEM Companies, Tier Suppliers, Industry Consultants and Car Distribution Companies to meet, network, share knowledge and strategies to meet the demand for green, smart & passenger-friendly automobiles.

During the two days conferences many international and local experts shared numerous presentations and their visions with the delegates. The discussion panel has provided most valuable insight and opinions to answer questions regarding the way to invest, develop, partner with and keep pace with the regional automotive development.

I would like to thank our keynote speakers and panelists: starting with our two event chairmen, James Chao, Managing Director of IHS Automotive and Gunadi Sindhuwinata, commissioner of PT. Indomobil Sukses Internasional for their contribution to this event as chairperson and as speakers. I also want to extend my gratitude to following keynote speakers and Panelists for sharing their knowledge

- **Gunadi Sindhuwinata** Commissioner Indomobil Group
- **Gilarsi W. Setijono** CEO Adyawinsa Automotive
- **Tetsuichi Hashimoto** Project Manager, Engine Design and Engineering Division Toyota Motor Corporation (Japan)
