### **Our Recent Clients Include**

World Clean Energy series of events is set to promote renewable energy development, and to accelerate the netzero transition.

Featuring top international experts, policy makers, scientists, engineers, technology developers, and business practitioners, the events set to address the most strategic issues of sustainable energy development and innovation. Participants of the events are the leaders and experts in energy investment, solar, wind, Geothermal, energy storage, LNG, Hydrogen, Grid/Utility and Energy Storage, Digital Energy industries across the world. Speakers and presenters of all energy sectors come to the events to share their insights and knowledge on how to accelerate the net zero transition without compromising energy security. It is the critical platform for regional thought leaders in both the public and private sector to collaborate on critical issues and opportunities in harnessing clean energy for now and the future.

It is also an exhibition showcasing world-class innovations, solutions and products in energy sector. The exhibition and networking opportunities enable the attendees to stay connected, inspired with the industry peers as well as to promote its product and forge business partnerships.

# Escom is the TURNKEY contractor for your bespoke events, basically you just need to focus on presenting your own solutions and make a wish-list of your potential clients. The rest is all on us. Yes we will have EVERYTHING sorted out for you.

### Market Research & Event Conceptualization

Escom's research team will conduct extensive marketing research regarding your target market, we will be able to advise you regarding the current status, trends and innovations, biggest players and emerging new players in the market, competition analysis between you and other players in the same segment. In combining those with our profound market knowledge as well as our event production experiences, we are able to provide the event conceptualization for you and give you specific advise on the scale, theme, target audiences, content and marketing targets of your event.

#### **Content Generation**

We will listen and discuss with our clients to understand the specific goals they want to achieve from organizing the event and we will give concrete advice on the event content, including the theme and content of the event, number of speakers, duration of the presentation, format of the Q&A sessions and the engagement of the audience.

### A Powerful Client Database

With Annually 40+ Large scale conferences hosted in Asia, Escom has a large database of 200,000 Asia's government officials, senior level business decision makers across various sectors, including government, investment sector, healthcare, hospitality, banking and financial services, retail, eCommerce, manufacturing, infrastructure and transportation, digital businesses, ICT/IT. The majority of those executives are the CEOs, GMs, Heads of Department, Head of Innovations, Tech Chief, etc. We call them "Decision Makers"

### Invite People on Your "Wish List"

Escom team is proud to say that our clients can assign 100% the audience acquisition task to us, and what's more, clients are encouraged to provide Escom a "Wish-list", which including the specific name, company name, job title of its prospective clients, Escom will work on the client acquisition according to your Wish List and ensure the majority of your selected delegates will be actually attending your webinar.

### Invite industry influencers as outside speakers

Upon the request of our client, Escom team will invite the outside speakers/ panelists to broaden the event content, to ensure that it is more than just a "Sales Pitch" or "Product Presentation", but rather a knowledge sharing platform that actually delivers insightful content so that the audience will be more willing to deeply engage.

### Venue/ logistics/ F&B/ Onsite Operations

Escom provides you the full event management for venue sourcing, operations, set up, onsite support, food and beverage arrangement, event onsite operations, delegate registration and management, post event survey, post event report and all the flow of the project management.

### Seamless Services, Turnkey Projects

We are a turnkey project contractor which you can outsource 100% the full cycle of your event project to us, from the conceptualization to content generation, from client acquisition to post event delegate contact info, from technical support to online marketing, from one country to Southeast Asia regional or even Asia wide event promotion

#### International Horizon, Regional Coverage

With staff located in China, Indonesia, Philippines, Vietnam, Singapore, plus our years of experiences in organizing business events both online and office across all major Asia countries, Escom team obtain the international horizon and skills to manage your event for a regional series basis, we are especially committed to the Southeast Asia countries

### **Delegate Acquisition**

This is the Key. 90% of Escom's preparational efforts are on delegate acquisition, because we understand this is the biggest challenge and this is our core value proposition to you.

We simply have to ensure that those you wish to be invited but you are not able to approach them, can be and will be approached by Escom team, in a professional way, and commit to attend the webinar.

The delegate Acquisition will be based on your "Wish List" of your prospective clients and you take the full control

## What we can arrange for your events

### **Panel Discussion**

### Lucky Draw

### Keynote Speech HIC HPC HIF HI

### **Booth Visiting**

### Match & Meet

### **Standing Buffet**

### Sample of Series Sponsors

We would like to thank you and the Escom team also for inviting us in the conference. We truly find the event an excellent one in terms of the quality and relevance of the topics and issues surrounding renewable energy development as tackled in the different panel discussions. The event was a good vehicle to provide stakeholders with a deeper understanding of the current power situation and the different challenges that we all need to address as we transition to net-zero emission.

Manolo Candelaria EVP of Citicore Power

### Gregory Lofamia Country Manager Vector Renewables

**Testimonials** 

An important aspect of the

are taking part and

accelerate the project development and permitting

policies and the need for

development of new

equipment.

greater alignment with the

technologies and improved

conference is that stakeholders

encouraging the government to

process. In addition, improved

was a significant opportunity for our representative, Nick Dizon, to learn more about energy efficiency and the future of energy in the Philippines. He particularly enjoyed the interactive panel sessions and the Q&A segments, where he was able to post relevant questions and share his experience and knowledge on the energy sector in Hawai and the USA. The event also became a timely avenue to connect with key contacts and thought leaders in the industry.
