Hanoi, August 14th, 2017

To whom it may concern,

Association of Vietnam Retailers (AVR) is pleased to support Escom as a strategic partner for the Indochina Retail Technology & Innovation Summit 2017.

Taking place on 9th November 2017 in Ho Chi Minh, Vietnam, the Summit will bring together over 200 key decision makers from the region's rapidly expanding retail sector.

This event is an important chance to support efforts to explore the potentiality of Indochina retail development and stimulate partnership - goals that are very much in line with Association of Vietnam Retailers' objectives.

As the national retailers association of the host nation, we would therefore like to warmly invite our friends in the retail industry and community to join us in taking part in the region's foremost retail-focused event.

Yours sincerely,

Dr. Dinh Thi My Loan
Chairwoman of AVR

RETAIL & FRANCHISE

TO WHOM IT MAY CONCERN

I am writing to confirm my support for the upcoming Indochina Retail Technology & Innovation Summit organized by Escom. With the rate of development in retail in general and retail technology in particular in this region, it is essential that retailers and retail partners get together and discuss future trends as well as future collaboration in order to prosper together.

Emerging Indochina is a region with one of the highest growth rates in consumer expenditure now up to 2030. However, this is also a region where household income is the lowest in ASEAN. As a result, this is a region where transformation shall happen at an amazing rate, yet flexibility and innovation in formats and channels require utmost attention to capture both the growing middle class and the bigger bottom of the pyramid. In such an exciting market conditions, I believe an event such as Indochina Retail Technology & Innovation shall bring together the best and the most innovative players of the industry to learn, unlearn, and relearn the way forward. I encourage you all to participate in the event and look forward to meeting you there.

Kind regards,

Phi Van, Nguyen
Chairperson
Retail & Franchise Asia

| Event briefing

Indochina, spearheaded by Vietnam, is one of the fastest growing, and best performing retail market in the world

With increasing disposable incomes, rapid urbanization and rising living standards, Indochina, as a region, is one of the most dynamic emerging economies in the world, notably in Vietnam, Thailand, Myanmar. Retailers, in particular, have also been drawn by its relatively young population of consumers – of which 70% are aged between 15 and 64 years – who promise to be a key driver of robust market growth.

Vietnam's stable economic growth rate and population size of approximately 90 million people providing an attractive backdrop for development of the retail industry. Over the last few years, Vietnam's retail sector has also witnessed healthy growth rates, with retail sales growing by 60% from 2013-2016, and forecasted to reach USD121 billion in 2017

Department Stores, Shopping towns, Super marts, Convenience stores are rapidly expanding with the wave of e-retail, the way consumers shop has changed drastically, and with it the structure of retail has had to adapt to embrace the Omni-channel age.

As the industry continues to embrace the wider international community, multinational retail groups have taken active steps to penetrate the market. Local Retailers are expanding the facilities and enhancing the

services level to stay competitive. Mall developers, department store operators, and retailers, brands are investing in its infrastructure and technologies which creates enormous opportunities technology suppliers, vendors and services vendors, such as RFID, digital signage, customer analytics industries. It's no good just jumping on the latest technology bandwagon - retailers must know what their consumer wants before they know what to deliver with everyone thinking of new ways to make more meaningful connections with customers.

Gathering 200+ key stake holders, decision makers and technology leaders, the Indochina Retail Technology & Innovation Summit is the foremost retail technology focused event and it is a MUST-ATTEND event for retailers and solutions providers

Shopping mall owners, developers, department store operators, supermarkets, convenience stores, brand owners, e retailers, IT, data and social marketing professionals, consultants and suppliers, medias, associations... this summit unites retail professionals of all type under one roof and this interactive event has been designed to allow a focused peer group of Asia retail executives the opportunity to network and discuss omni-channel best practices in a relaxed environment. Meet with the potential partners and sourcing the latest technologies, embrace the innovations and trends. There will be plenty of time for networking during registration, buffet lunch, refreshment breaks and a drinks reception

| Key Topics at this Conference
